

We are cleaning all unnecessary stuff and I saw this old fellow here. It is a letter game that I made for Veda some time ago, when she started learning to compose words. It is a set of cards and letters (Cyrillic in our case) with two cards of the same image - one of them is with empty boxes to place letters and the other one is a control card.

It can be easily made at home with just sheets of white paper, red and blue marker and colour pencils. To preserve it for longer time you can laminate it. It is possible even without a laminating machine, just with laminating pouch and an iron.

Sharing for inspiration. 😊
